ABOUT US

Buckingham, Doolittle & Burroughs is a Northeast Ohio business law firm. We've been around for more than 100 years and have continued to evolve with the ever-changing legal landscape. A FIRM FIT *for me*

As an attorney with three children, finding a firm that equally supports my professional growth and having a life outside of work is important. I've never been comfortable with the idea that I would have to choose one over the other. I'm so happy I don't have to.

The Buckingham **DIFFERENCE**

We are one firm.

We believe we are better together than we are apart. We foster an environment where everyone feels welcomed, valued and respected; a place where we are not divided by geographic locations, job titles or practice areas. We know every person at Buckingham is a key contributor to the Firm's overall success.

We are focused

We know what we do well and we know there will always be opportunities to make ourselves better. Through continued innovation and streamlined approaches, we've narrowed our target market and consolidated our key focuses. We help business owners, general counsel and executive leaders find success through our Firm's support.

We earn client loyalty

Offering efficient legal services is no longer enough to generate client loyalty. We earn their trust through elevating the client experience and going above and beyond the standard scope of work.

We collaborate

Our clients see the value in having a legal team behind them that exudes bench strength and unified collaboration. Thus, Buckingham focuses more on client service teams rather than individual attorneys servicing clients.

We innovate

Innovation includes taking calculated risks and requires the collective effort of many people. Sometimes that means piloting new service offerings, trying a different approach or simply reimagining what success looks like. We believe innovation means never giving up as we aim to offer new solutions, better processes and enhanced services.

We lead with confidence and humility

We lead with confidence in ourselves, in our network of resources, and in our ability to serve our clients. However, whether we celebrate a win or learn from a failure, we always remain humble and grateful for the opportunity to become better in all that we do.

We believe in the value of our services

We know we offer clients something special. Clients request our individual lawyers and the Firm to handle some of their most complex and urgent matters. They do so because we excel at our craft and treat clients as more than just a billable hour.

We commit to doing the right thing, always

Anticipating our clients' needs, celebrating another's success, leading with kindness and supporting another in their moment of weakness is what makes our Firm great. When we do the right thing, act in the right manner, and lead with the best of intentions, we accomplish the remarkable.
