AREAS OF PRACTICE

Real Estate & Construction

As a business attorney, I seek to find creative solutions to help clients endeavor in their legal matters. My practice is focused on assisting clients with the purchase, sell, development, leasing, zoning, and financing of real estate investments.

My experience in the public, private, and non-profit sectors have provided me with immense insight into the often intersecting obstacles that organizations must navigate to grow and remain competitive. As the son of a small business owner, I understand how vital it is to have a trusted advisor who takes the time to listen carefully, and communicate clearly.

I am here to serve as that trusted advisor, counselor, and facilitator to help you obtain the vision and goals you are striving towards.
