No Jacket, No Tie – Just Service! I was raised by and have been surrounded by entrepreneurs, family business owners, and closely held business owners (less than 10 owners) my entire life and career. I have been the sole owner, operator, and sold a corporate private investigation company employing former FBI agents and Ohio State Highway Patrol officers that provided services to some of the largest companies in N.E. Ohio, while simultaneously practicing law. I know what business owners want from their business attorney – quick responses that provide practical, real world, and result focused legal advice and representation at a fair price.

For more than 30 years, I have also represented individuals, families and business owners in estate planning, probate, trust administration, and estate dispute resolutions always striving to make these services as quick, easy, understandable, and reasonably priced as possible.
