AREAS OF PRACTICE

Taxation

I am an associate in the taxation practice area. I have a masters in accountancy, and I like to implement my understanding of both law and accounting into my work. I have previously worked with a family office and believe that proper service to those you work with, both as co-workers and clientele are of primary importance.

I am always looking for opportunities to learn and grow my skills, and I have always enjoy the chance to diversify my skills. I always like to consider each problem a unique challenge, and apply both my education and experience in ways that help others. I enjoy volunteer work and have previously volunteered for the Cleveland Museum of Natural History and the Cleveland Metroparks Zoo. I plan to utilize what skills and experience I have garnered from these and other experiences in my career going forward and look forward to my work at Buckingham.
