AREAS OF PRACTICE

Business
Mergers & Acquisitions
Taxation
Employee Benefits & Executive Compensation

I am a business lawyer in Buckingham's business practice group, with a focus on assisting entrepreneurial clients in the creation, restructuring, purchase and sale of their businesses. During such times of transition, I often help my clients with the negotiation and documentation of their relationships with other entities.

Although I have the capability to represent publicly held companies in select areas and do so, most of my clients are privately held. My extensive experience dealing with the tax issues facing privately held companies enables me to offer my clients a unique advantage. In fact, I have participated in the drafting of legislation adopted by the Ohio General Assembly concerning the taxation of owners of private companies, including the Ohio statute that created limited liability companies.

My clients deserve and demand prompt and efficient services, so I focus on exceeding my clients' expectations for the quality and efficiency of my services, and my responsiveness to my clients' needs.

EXPERIENCE

- Served as chair of the Business Practice Group
- Serves on the committee that monitors and proposes amendments to the Ohio Limited Liability Company Act
- Joined the firm as an associate attorney in 1976; was elected a partner in 1982
- Previous member of the firm's board of directors
- Served on the committees which drafted the Ohio statutes establishing a "bright-line" test for residency and authorizing liability companies

SIGNIFICANT MATTERS

- Represented one of several owners of affiliated companies that were split-up in a tax free reorganization thereby avoiding potential litigation.
- Represented a management group in a private company investment in a limited liability company enabling the management group to sell most of their investment on a favorable tax basis while reinvesting in the successor company on a tax-free basis.
- Represented a family in a sale of a multi-family residential real property complex, which was reinvested in tax-free forward and reverse exchanges, some of which were outside the IRS safe harbor for such exchanges.
- Represented a landlord who reinvested proceeds received in consideration for the termination of a ground lease, into a lease of other property upon which replacement buildings were constructed, thereby avoiding tax on the gain attributable to the termination payment.
- Represented a family in a two-step buyout of multiple shareholders from an enterprise value company via a tender offer.
- Represented a minority shareholder in a buyout of a controlling shareholder from a corporation with funds provided by an institutional investor, who received an equity interest which was subsequently repurchased. Pass through taxation of acquired company was preserved through use of a creative structure.
- Restructured corporation prior to sale so the buyer could purchase stock, although the transaction was treated as an asset sale for tax purposes, and seller avoided tax on distribution of retained assets.
- Formed a joint venture of two corporations with a partial payout to the shareholders of one of those corporations on a tax-free basis.
